Safety tips

● Only an authorised person in a certificated service centre can perform technical maintenance.

● Tools should always be serviced and calibrated by a certified service engineer.

● Tool should only be used for precise tightening as specified in the instruction manual.

● Check instruction manual on how to read the value scale on the tool properly.

● Stop tightening after hearing a feedback from the tool.

● Use only sockets with the same square drive.

● Always return the value on the scale back to 0 after usage and before storing.
